WORK EXPERIENCE

🏢 TRILOGY INTERNATIONAL, A KORN FERRY COMPANY

OUTSYSTEMS SENIOR – 01/08/2024 – CURRENT

Western Union
Project: Development of the "Digital Bank" mobile application for Western Union.
Description: Working in the User Experience squad, focusing on the visual aspects of the mobile application, creating new metric plugins, and modifying app behaviors to enhance the user experience.
Technologies: OutSystems V11 (Mobile), SCRUM, JavaScript, HTML, CSS.
Results: Contributed to improving user experience by ensuring more intuitive interfaces and implementing features that optimize user interactions with the application.

🏢 KINETIT - A BABEL COMPANY – LISBOA, PORTUGAL

SENIOR OUTSYSTEMS DEVELOPER / TECH LEAD – 01/2023 – 31/07/2024

OutSystems Senior Consultant – Portuguese Government
Apr 2024 – Jul 2024 · 4 months
Project: Development and management of the SRTD application, part of the "Recuperar Portugal: PRR" program.
Description: Played a key role in the design, implementation, and maintenance of the SRTD application, ensuring efficient management and monitoring of Portugal's Recovery and Resilience Plan (PRR).
Technologies: OutSystems V11, SCRUM, JavaScript, HTML, CSS.
Results: Strengthened governance and monitoring of the PRR program, contributing to its successful rollout and execution.

OutSystems Tech Lead – Volkswagen
Nov 2023 – Apr 2024 · 6 months
Project: ADMS (AeroDynamic Management System).
Description: Led the evolution of the ADMS by digitalizing EBW Aerodynamic and Wind Tunnel activities. Responsible for stabilizing the application, solving Architecture Dashboard issues, and implementing new features to support certification workflows.
Technologies: OutSystems V11, SCRUM, JavaScript, HTML, CSS.
Results: Improved workflows, integrated wind tunnel APIs, and enhanced security and validation of vehicle certifications.

OutSystems Senior Consultant – NOS
Sep 2023 – Nov 2023 · 3 months
Project: Development of new requirements for two applications related to package sales.
Technologies: OutSystems V11, SCRUM, JavaScript, HTML, CSS.
Results: Delivered enhancements such as setting direct debit as the default payment method, improving customer retention and increasing sales efficiency.

OutSystems Senior Consultant – Luz Saúde
Apr 2023 – Sep 2023 · 6 months
Project: Ticketing System and Ticketing Monitor for Hospital da Luz.
Description: Built a real-time ticketing application to monitor the full flow from issuance to patient–doctor meetings, and developed front-end displays for live ticket calls across hospital units.
Technologies: OutSystems V11, SCRUM, JavaScript, HTML, CSS.
Results: Gave Hospital da Luz full control of its ticketing system, streamlining patient management and improving efficiency.

OutSystems Senior Consultant – GSA
Jan 2023 – Apr 2023 · 4 months

Project: Time & Absences Reporting and Project Control System.
Description: Enhanced core applications supporting attendance, absence, and project control, ensuring full integration with the company's management ecosystem.
Technologies: OutSystems V11, SCRUM, JavaScript, HTML, CSS.
Results: Improved internal management of resources, allocations, and cost control through system evolutions.

OutSystems Consultant – "Electric Charging Control System" (POC)

Jan 2023 · 1 month
Project: Proof of Concept (POC) for a backoffice to configure charger locations, user access, and system setup; integrated with charging stations via REST APIs to collect and process charging data.
Technologies: OutSystems V11, JavaScript, HTML, CSS.
Results: Delivered a validated proof of concept that demonstrated scalability for future EV charging management systems.

🏛 **CAPGEMINI** – LISBOA, PORTUGAL

OUTSYSTEMS DEVELOPER – 01/2022 – 01/2023

OutSystems Senior Consultant – Schneider Electric

Jan 2022 – Jan 2023 · 1 yr 1 mo
Projects: Multiple OutSystems traditional web projects.
- **Air-Freight Application:** Developed new features and requirements for an internal air-freight app, focusing on calculating order prices for plane deliveries.
- **Warehouse Internal Applications:** Performed maintenance, performance tuning, and implemented new requirements for applications managing warehouse and container operations.
- **Other Internal Applications:** Supported and evolved several traditional apps across business areas.
- **Technologies:** OutSystems V10, SCRUM, JavaScript, HTML, CSS.
- **Results:** Increased efficiency in air-freight cost calculation and improved overall operational workflows through bug fixes, optimizations, and feature enhancements.

OutSystems Senior Consultant – Banco de Portugal

Jan 2022 · 1 month
Project: Bug resolution and stabilization of internal applications.
Technologies: OutSystems V10.
Results: Improved application stability and reliability by resolving all pending tickets, ensuring smoother operations for critical systems.

🏛 **NOESIS** – LISBOA, PORTUGAL

OUTSYSTEMS DEVELOPER – 12/2018 – 12/2023

OutSystems Consultant – Galp IT

Feb 2020 – Dec 2021 · 1 yr 11 mos
Project: Developed the "3 Minutos" application, an open app for contracting new gas and electricity services for housing. Included a **backoffice** for managing contracts and API calls, and a simulator app for contract simulations.
Site: 3 Minutos Application
Technologies: OutSystems V11, SCRUM, JavaScript, HTML, CSS, Microsoft SQL Server.
Results: Streamlined the contracting process, improved user experience, and enabled operational management through API monitoring and adjustable backoffice settings.

OutSystems Consultant – Oney IT

Jan 2020 – Feb 2020 · 2 mos
Project: Created an OutSystems report on infrastructure analysis, covering security, best practices, and performance.
Technologies: OutSystems V10, CSS, HTML.
Results: Provided actionable insights and recommendations that enhanced infrastructure security, compliance with best practices, and performance.

OutSystems Consultant – Medicare

Oct 2019 · 1 mo
Project: Initiated OutSystems adoption within the company by developing new apps to display lists, create REST integrations, and build an End Users authentication app, while supporting internal employees.
Technologies: OutSystems V10, CSS, HTML, REST, Microsoft SQL Server.
Results: Successfully introduced OutSystems into the company, improved internal processes, enabled better card/user management via NIF, and implemented LDAP-based authentication for end users.

OutSystems Consultant – PSML IT (Parques de Sintra)

Feb 2019 – Sep 2019 · 8 mos
Project: Developed a B2B web app to sell tickets to other businesses, with two backoffices: one for managing museums, monuments, shows, and tickets, and another for managing partner companies.
Technologies: OutSystems V10, CSS, HTML.

Results: Facilitated B2B ticket sales and improved management of cultural assets and reselling processes, leading to enhanced business operations.

🏛 **AGAP2IT** – LISBOA, PORTUGAL

IT CONSULTANT – 27/10/2017 – 11/2018

Consultant – Asseco PST
Nov 2017 – Nov 2018 · 1 yr 1 mo
- **Web Report OutSystems Application**
- **Description:** Developed a web reporting application capable of receiving and processing CSV files.
- **Technologies:** OutSystems V9, OutSystems V10, CSS, HTML.
- **Results:** Improved data analysis and reporting capabilities by creating a user-friendly interface for handling CSV files.

- **Timereport .NET Application**
- **Description:** Developed new features, conducted maintenance, and implemented integrations with SAP for the Timereport application.
- **Technologies:** C#, JavaScript, Angular, HTML, CSS, Microsoft SQL Server.
- **Results:** Enhanced functionality and usability of the Timereport application, ensuring seamless integration with SAP for streamlined data management and reporting.

🏛 **PDM&FC**

IT CONSULTANT – 02/09/2017 – 20/11/2017

IT Consultant – IRN (Instituto de Registos e Notariado)

- **IBM FileNet Application "souIRN"**
- **Description:** Responsible for the development, administration, and support of the IBM FileNet Application "souIRN".
